

# Md Arsalan Ali

## Full Stack Web Developer

## About Me

"I am a passionate and dedicated Full Stack Web Developer with a strong foundation in HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. As a fresher, I focus on writing clean, efficient, and maintainable code while continuously improving my skills. I enjoy building responsive, user-friendly web applications and have hands-on experience working on personal and academic projects involving front-end design, back-end development, and database integration. I am eager to contribute to a dynamic team where I can learn, grow, and build innovative digital solutions."

## Projects

### Netflix Homepage Clone

Built a responsive clone of the Netflix homepage using HTML and CSS Replicated layout, navigationbar, and visual design to improve frontend skills Focused on practicing clean code and responsive design principles.

[HTML](#) [CSS](#)
